

We at **AuntieGen, Inc.** are experts when it comes to emergency outbreak response. Our Nationwide teams can mobilize within a few hours after an outbreak. Not unlike an E.M.S response team our employees are standing by at a moment's notice in most major cities if such an outbreak occurs. Our rapid response team members have the tools, resources and capabilities to handle an H1N1 (Swine flu) outbreak of any size in any institution. We have a disaster readiness protocol in place and specific protocols for any and every major outbreak. We have the ability to mitigate any outbreak in most cases four to eight hours thus providing limited disruption to business or education

Protection From What You Can't See
